Foreword

WE ARE greatly pleased to be able to place in the hands of our friends and patrons, this beautiful new catalog, which is an engraver's masterpiece and a printer's work of art, very correctly portraying in photo reproduction, representative articles from the various lines we carry, selected with a view to showing their exceptional value.

We have not attempted to illustrate our whole stock, in fact that would not be possible, because of its immensity and would not be practical for the reason that we are constantly adding thereto.

We hope you will conserve this book for future reference, always bearing in mind that we will gladly welcome you to our establishment, either as a customer or an interested visitor.

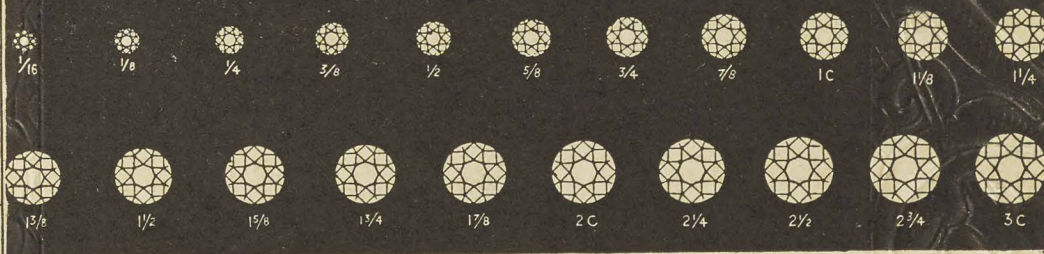

DIAMONDS

Years of technical training and constant practice are necessary to appraise the value of diamonds accurately. There are so many variations and combinations of variations in weight, size, color, shape and brilliancy, all of which affect the value, that the occasional purchaser must buy absolutely on faith — faith in the honesty, experience and judgment of the jeweler you are dealing with. We stand behind every diamond sold by us. Its quality, weight and color we fully guarantee.

We have made a specialty of diamonds for many years, and buying in large quantities direct from headquarters enables us to secure prices and selections that are not otherwise possible. The quality is the best that can possibly be furnished at any given price and diamonds purchased of us will be at a considerable saving to you.

We do all kinds of diamond mounting and are pleased at all times to quote prices for the work or submit special designs for making over or resetting family gems.

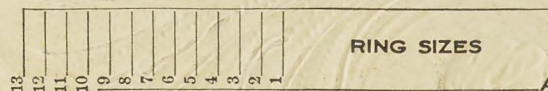

STANDARD SCALE OF DIAMOND SIZES

This cut accurately represents the actual sizes of well-proportioned diamonds of the weights indicated. The standard of weight is the "carat," a name derived from the seeds of an Oriental pod-bearing plant, used to weigh gold dust, and is equivalent to 3.174 grains troy.

A diamond of correct proportions is twice as wide as it is deep, the depth divided one-third above and two-thirds below the girdle. A stone so cut is very brilliant and "well-spread."

TO DETERMINE SIZE OF RING OR THIMBLE

Take a small strip of paper, draw tightly around the finger and cut off where both ends meet. Lay on diagram, one end even with the line marked "A."

The numbered line to which the other end reaches is the size of ring or thimble required.

See back inside cover page for special instructions for placing orders by mail and other valuable information.

Repair Department

We give you more value in our Repair Department than any other concern in the country---and we realize just how broad this statement is when we make it. "Bring Your Repairing to Us" has been our slogan for many years, and that most of you have answered the call is evidenced by the fact that, since we became established, we have been enjoying a constant increase in this branch of our business.

DO YOU REALIZE

The SERIOUS Consequences of continued EYE STRAIN? Priceless beyond all possession is the eyesight, deserving of your highest consideration. Don't trifle with your eyes. It will cost you nothing to see us.

Optical Department There is no profession which requires more accuracy, skill and experience. We have spared no expense in bringing this department up to the highest degree of efficiency.

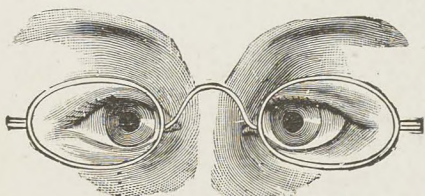

Myopic
Or Near Sighted Eye

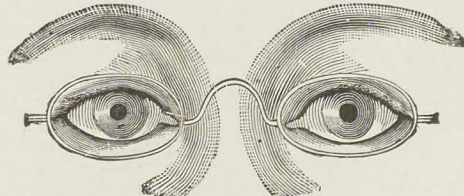

The Hypermetropic
Or Far Sighted Eye

If your glasses fit like this then come to us and we will make them fit like **THIS**

INCORRECT

CORRECT

"Let this be distinctly understood." Each case is carefully considered. Each eye is scientifically examined. Each patient gets the earnest interest of a skilled eye specialist (just as if a professional fee were charged). If glasses are not needed, we frankly tell you so. If they are needed, we make the ones that precisely suit, and charge moderately for them. Broken lenses quickly replaced

How to Find Your Size.

Cut a piece of paper the exact length so that the two ends will just meet when put around the finger on which you are to wear the ring. Now take this piece of paper and put one end at the end of our Standard Ring Measure just at the point where you see the letter A. Then stretch the paper along, and where it ends will show you the size of the ring you wear. When no size is stated, we will send the average size—about six-and-a-half for ladies and nine for gentlemen.

14K SOLID GOLD SIGNET RINGS

IN THIS SPACE we can illustrate only a very limited number of our large selection of beautiful Signet Rings to which we are constantly adding enabling us to offer our customers new and up to date goods. We are also prepared to make special designs to order on short notice and will furnish sketches and prices on request

No extra charge for any reasonable amount of engraving.

The DUEBER-HAMPDEN CO. makes six additional grades of 16 size movements, prices of which can be had upon request.

The Dueber-Hampden factory is the only one in the world wherein are made **complete** high-grade watches. There is undoubtedly a distinct advantage in this feature as it prevents the fitting of good movements into cheap, poorly constructed cases that might ruin their timekeeping qualities and vice versa. These watches are fitted and inspected very carefully and when sent out are ready for the wearer.

FINE QUALITY GOLD FILLED WATCH FOBs

The image displays a variety of gold-filled watch fobs and chains. The items are arranged in a grid-like fashion, with each item accompanied by its price, model number, and description. The descriptions specify the type of chain (e.g., Coat Chain, Vest Chain, Boys' Vest Chain), the finish (e.g., Gold Filled, Bright Finish, English Finish), and the link style (e.g., Soldered Links). The items include different chain styles such as rope links, oval links, and twisted links, as well as various clasp mechanisms like toggle clasps and ring clasps. The background is a light, textured surface, and the entire advertisement is framed by a decorative border.

SELECTED STYLES OF ENGRAVING

We engrave any lettering desired free of charge on Diamond Jewelry, Watches, Loving Cups, Wedding Rings and Medals. On Plated or Sterling Silver Ware, Spoons, Gold and Silver Novelties, Canes or Umbrellas, from one to three letters or monogram is engraved free of charge. If any engraving is desired not included in the above our charges will be very reasonable. If the design of the engraving is left to us we will engrave suitably. The elaborate monograms and lettering are for the more expensive articles, and if an inexpensive piece is selected, we will be compelled to charge extra, if a quantity of engraving or an elaborate style is desired.

Modern Engraving Styles

Order Holiday Goods as early as practical, especially articles to be engraved. Shipments will be made on date designated by you if so desired.

During the Christmas rush we endeavor to fill all engraving orders promptly, and advise the placing of orders early, as between the 15th and 25th of December we are usually extremely busy in our Engraving Department.

Leave your call with
Big Ben

LEAVE your call with Big Ben and sleep soundly, trustingly, every minute of the night—he'll call you on the dot at any time you say.

And if you roll over and try just one more nap, he'll remind you gently that it's break-fast time and keep on calling until you're wide awake.

There's a feeling of bigness and strength about him, a peculiar glow of brightness and cheer that is strangely novel about an alarm clock.

Big Ben stands 7 inches tall, slender, massive, handsome. His face is frank, open, easy to read—his keys large, strong, easy to wind—his voice clear, sunny, pleasing to hear.

It's a great clock for those who've got to get up in time and live on time, it's the one alarm clock you can always count on.

WATCHES

It is impossible to give you in this catalog a fair idea of our stock of watches; the assortment is so large and varied that we could well issue a catalog for that department alone. You will find here all grades of watches from the very finest to the inexpensive. Great care has been exercised in the selection of both cases and movements. You may depend upon the watch you buy of us being full value to the very last penny. Every watch we sell bears our personal guarantee.

SILVERWARE

We have made greater preparations this year than ever before in selecting our silverware and wish to assure our patrons that our stock is not only the largest we have ever carried, but it comprises the choicest and most desirable patterns from the leading makers, and we are, therefore, able to offer you goods which are thoroughly reliable and up-to-date.

The patterns include some of the most exclusive and artistic ever shown and, if you anticipate the purchase of anything in silver, we would be pleased to have you inspect our stock, or, if this is not convenient, write us for the information desired.

A piece or set of silverware is very appropriate as a Holiday, Wedding or Anniversary gift. Our prices will be found very reasonable and the quality is guaranteed.

ENGRAVING

We execute the very finest work in this department. Our engraving has a rich, artistic finish, which commends it to people of refined taste. If an article is to be engraved, it is advisable to place your order early as possible.

INSTRUCTIONS FOR ORDERING BY MAIL

You need have no hesitancy in ordering from the illustrations in this catalog, for behind every article herein is not only our own guarantee but also the guarantee of the manufacturer.

MAIL ORDERS.—Our facilities are the best for filling orders promptly and satisfactorily. We have a special department for the execution of mail orders, and the greatest care is exercised when the selection is left to us. Goods desired for the Holidays should be ordered early as possible to avoid delays incident to the great pressure of business at that time.

PRESENTS.—Persons wishing to send presents may send us the cards with the order and shipping instructions. We guarantee that the gift will be delivered in a manner reflecting the greatest possible credit on the purchaser.

HOW TO ORDER.—When ordering, do not cut catalog—simply give name of article, catalog number and price. Always give your full name and state whether Mr., Mrs. or Miss, and Post Office address. Give us definite instructions and we can insure satisfactory service.

HOW TO REMIT.—Those who have not opened a regular charge account or arranged for one, should remit with the order. Money may be sent by Registered Mail, Postal or Express Money Order, Bank Draft or Currency. Postage stamps will be accepted for small purchases or fractions of dollars.

Dear Friend:-

We enclose our new Catalog which we hope will be of interest to you.

The illustrations are photographic reproductions, yet they cannot do justice to the exquisite finish and fine workmanship which is so beautiful in the goods themselves.

While this catalog represents only a few goods in our immense stock, yet we hope it will make suggestions and assist in selecting your holiday gifts.

If you wish goods not shown herein, you will probably find them in our stock, or if not, we will be pleased to furnish designs and estimates of any article wanted.

Having had many years experience in the jewelry business here, we are enabled, with our large stock, to supply your every want and buying direct from the manufacturers, we save you the middleman's profit.

We desire to suggest the advisability of making your Christmas selections early as possible, especially goods to be engraved.

If any of your friends desire one of our catalogs, we will be pleased to send them one upon request. We extend you a cordial invitation to visit our establishment.

We are,

Very respectfully,

Chas. B. Engel
